TITLE

Over The Counter (OTC) Active Stock Investors and Qualified Inquirers

DESCRIPTION

The speculative investors in this premium mailing list with optional opt-in email addresses are young + aggressive. These speculators have either invested or have made a qualified inquiry to invest in shares of publically traded stocks and corporate bonds on the OTC:BB (Over the Counter Bulletin Board) markets or have purchased shares of stocks known as Pink Sheets. This high income audience, with an account size or qualified inquiry of \$10,000 or more, indicates that their trades are made through an online account or through a traditional brokerage firm. Self-reported information also indicates that these aggressive investors prefer shares offered from new + emerging business-to-business and business-to-consumer companies that are trading under \$5 per share. These emerging companies cover a wide array of industry sectors including heavy manufacturing, mining, pharmaceuticals, medical diagnostics, the latest apps, cutting edge technologies, network security, power + energy sources, chemicals, composites, financials, organic foods+craft beverages. These affluent speculators are attracted to high risk, high yield investments in low-priced stock + securities that they can add to their portfolio. All marketing data points, self-reported + public, are audited + double verified each month through 2 or more organic sources ensuring superior accuracy and a receptive + responsive audience. Most of the risky investors in this premium marketing data make their own financial decisions from their marketing research + from analyst reports on new + emerging companies with the latest technologies that are poised for exceptional market position, potential, and growth
