DESCRIPTION

This premium marketing data is composed of wealthy individuals who have either invested or have expressed an interest to speculate at least \$10,000 in the options market. These affluent and speculative investors find volatile + high risk, high return investments very appealing. All marketing data points, self-reported and public, are audited and double verified each month through 2 or more organic sources ensuring superior accuracy and a receptive and responsive audience. The daring investor in this premium mailing list with optional opt-in email addresses are attracted to the high yielding return of the 'calls' and 'puts' trading options and are willing to risk a substantial loss. This breed of natural risk-takers have a diversified portfolio and a substantial net worth that can absorb a loss when trading within the extremely volatile and globally sensitive option market.
